

Internet Assisted Review (IAR) Commons 2.6.4.3 Release Notes

Provisional Accounts Log In

Verification Pending Screen

When a user initially creates an IAR account, a quality assurance process is initiated to verify that the account information supplied by the user is valid and that there are no information discrepancies associated with a different account. While this process is taking place, the account is deemed to be **Provisional**.

As part of that quality assurance process, the account holder is allowed to verify **Provisional** account information before the account is granted **Active** status. Previously, if a user tried to log into the eRA Commons with a **Provisional** account, an error message would appear. The user is now directed to the Verification Pending screen (COM0001) instead of receiving the error.

Figure 1 Verification Pending Screen (COM0001)

Critiques

Reviewer's Name Appearing Incorrectly When Submitting Critiques

It was discovered that after a reviewer submitted a critique during the Read phase and then attempted to view the submitted critique, the reviewer's role subsequently would appear as **Unassigned** in the **Role** column. The reviewer's role now appears correctly in the **Role** column.

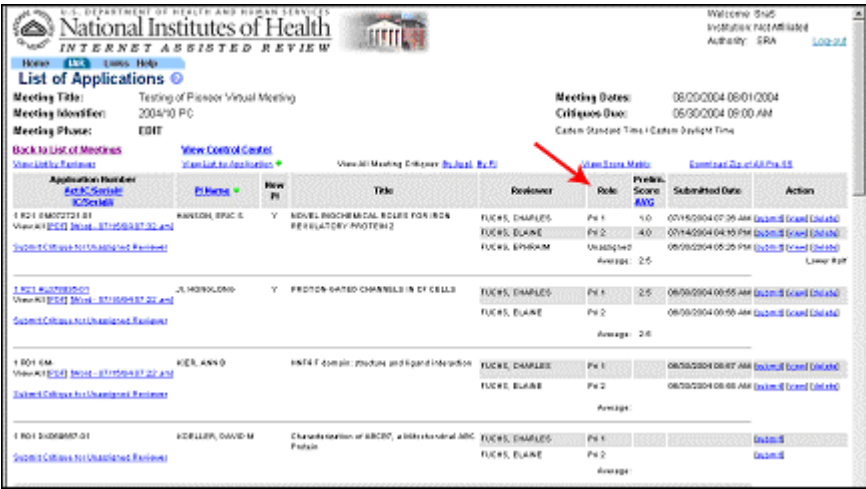

Figure 2 List of Applications Screen (IAR0007)

Subproject Critiques

The Preliminary Summary Statement is a Microsoft Word file of a reviewer's critique associated with a parent application in a meeting. When a Preliminary Summary Statement is created, IAR is designed to pull all subproject critiques associated with the parent application into the Preliminary Summary Statement, regardless of the meetings of the subproject critiques. It was discovered however that subproject critiques from different meetings were not being included in the Preliminary Summary Statement.

This error has now been corrected so that all subproject critiques, regardless of meeting, are now included in the Preliminary Summary Statement.

Creating Preliminary Summary Statements Without a Parent Application Critique

It was discovered that when a parent application did not have submitted critiques assigned to it, but did contain critiques that were submitted for the parent application's subprojects, the system did not create a Preliminary Summary Statement for that parent application.

The IAR system has now been modified to allow for the creation of Preliminary Summary Statements for a parent application that has no submitted critiques of it's own, but does contain submitted subproject critiques.

Submitting Critiques for Unassigned Reviewers

The IAR system has been modified to allow SRAs/GTAs to submit critiques for unassigned reviewers. A new link, called the **Submit Critique for Unassigned Reviewer** link, has been added to each record in the List of Applications screen (IAR0007), as shown in Figure 3.

Figure 3 Submit Critique for Unassigned Reviewer Link (IAR0007)

When clicked, the link will direct the system to take the user to the Submit Critique and Preliminary Score screen (IAR0011), as shown in Figure 4. From this screen, the user will be able to select from the **Reviewer Name** pick list the available unassigned reviewers.

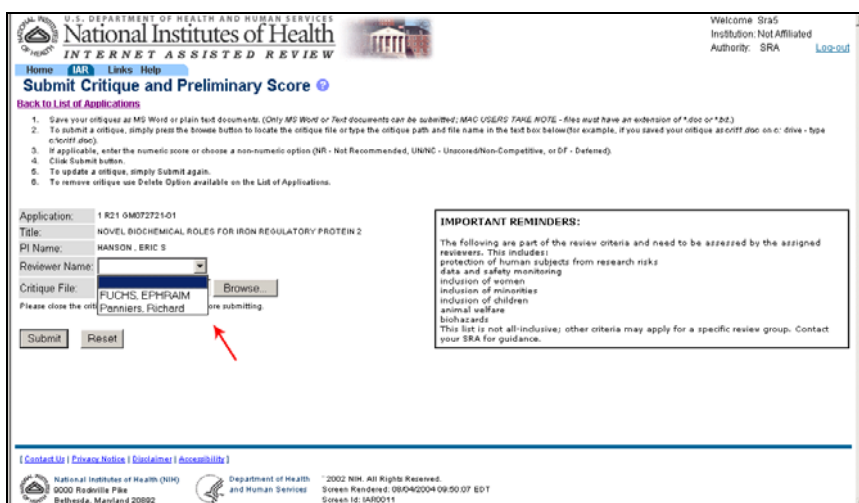

Figure 4 Unassigned Reviewers Pick List (IAR0011)

NOTE: The Submit Critique and Preliminary Score screen (IAR0011) consists of reviewers that are not assigned to the application and have not submitted critiques. This list also excludes reviewers in conflict with the application.

View Existing Critique Link

A new link, called the **View Existing Critique** link, has been added to the Submit Critique and Preliminary Score screen (IAR0011), as shown in Figure 5. Users can now use this link to view their previously submitted critique.

Figure 5 *Submit Critique and Preliminary Score Screen (IAR0011)*

View This Submitted Critique Link

Previously it was discovered that after a reviewer submitted a critique, and then submitted scores for an application, the **View this submitted critique** link to the critique was not available. This flaw has been corrected so that the **View this submitted critique** link to the critique is available at all times.

During critique regeneration in PDF format, clicking the **View this submitted critique** link displays the critique in the form of the originally submitted Word file.

Scores

“Preliminary Score” Label

The label “Score” has now been renamed as “Preliminary Score”. This terminology change affects all instances of the label “Score” in IAR, including all column headings.

Exporting a Score Matrix Report to Excel

The Score Matrix, used to streamline applications that have low scores and require little if any discussion at the Review meeting, can now be exported as a report to Microsoft Excel for further editing and manipulation. To export a Score Matrix Report to Excel:

1. From the List of Applications screen (IAR0007), as shown in Figure 6, click the **View Score Matrix** link. The View Score Matrix screen (IAR0008) opens.

List of Meetings Screen (IAR0001)

New Meeting Filter for List of Meetings

The IAR system has been updated to filter old meetings from appearing in the List of Meetings screen (IAR0001). When the user logs into IAR and accesses the List of Meetings screen (IAR0001), meetings that are older than 6 months will not appear in the **Meeting** column. These meetings are now considered to be “old” meetings.

In addition, meetings that have passed their start dates and were not assigned phases will also not appear in the List of Meetings screen (IAR0001).

Lower Half Indicator

The **Lower Half** indicator has been added to the **Action** column in the List of Applications screen (IAR0007) in order to identify applications with low scores. Applications are designated as “**Lower Half**” by the SRA on the Edit Score Matrix screen (IAR0009), as shown in Figure 10.

The screenshot shows the 'Edit Score Matrix' screen for the 'Testing of Pioneer Virtual Meeting' (Meeting Identifier: 2004/10 PC, Meeting Phase: EDIT). The screen includes a table of applications with columns for Application Number, PI Name, Lower Half indicator, and Preliminary Scores. A red arrow points to the 'Lower Half' checkbox column.

Application Number	PI Name (Conflicts)	Lower Half	AVG	PRELIMINARY SCORES

Figure 10 Edit Score Matrix Screen (IAR0009)

To designate an application as **Lower Half**:

1. Check the checkbox(es) in the **Lower Half** column of the application(s) that is/are to receive the Lower Half designation.
2. Click **Submit** to save your changes.

Sort Data by Column Header

The List of Applications screen (IAR0007) now contains additional sortable column headers (Figure 11). By clicking these column headers, the user is able to sort the data in these columns into alphabetical or numerically ascending order. The following column headers are now sortable:

1. **Act/IC/Serial#**
2. **IC/Serial#**
3. **PI Name**
4. **AVG**

Create a New Account

Step 1 of 3

You are creating an account associated with the NIH Profile for PATEL, TARUN B.

You are creating an online account for the NIH Internet Assisted Review (IAR) application. This account is used to access Internet Assisted Review (IAR) and can also be used in the future for other electronic interactions and applications at the NIH. To activate your account, the following steps are required:

1. The form presented below must be completed.
2. Next, your NIH support and committee service is presented. Note that only awarded grants and committees served, not including Special Emphasis Panels, are presented. Please help the NIH by verifying the accuracy of this information.
3. The last step in the process is a confirmation page.

Once you have confirmed your NIH support and committee service, your request will then be processed by the NIH. Generally, it takes the NIH 2 to 5 business days to associate all of your historical records to your new NIH Commons account. Once that process is complete you will be notified by email and will then be able to use the IAR application using the Username and password created in the below form so be sure to remember this information.

Account Form

User Name * (Username cannot contain spaces)

Password * Password must be at least eight (8) non-blank characters in length
Must contain a mixture of letters, numbers and special characters: ! # \$ % ^ _ = + < >

Re-type Password * First and last characters cannot be numbers
Cannot contain username
For additional guidance, please review the eRA Password Policy.

Phone *

E-mail *

First Name Middle Name Last Name

Organization

* indicates required field

Figure 16 Create a New Account Screen Upper Portion

Providing Birth Date and SSN is for verification purposes only. This information assists the NIH in associating all your records with your new account.

Verify NIH Support Screen

Verify NIH Support Screen Changes

The Verify NIH Support screen has been modified. The modifications are as follows:

1. To help the user in navigation of the verification process, the **Step** icon has been added to the upper right corner of the screen, in addition to below the Committee Involvement table.
2. The estimated time period for NIH to approve and complete submitted requests is now 2 to 5 business days.
3. The text "If the above information is incorrect, you may also reject the request, which will notify **Richard Panniers** that the entire account request was in error." has been removed.
4. The following paragraph has been added below the bottom Step icon: "**Reject Account Request** should only be performed if none of the support or committee involvement is correct. If partially correct, please help us identify the discrepancies and select **Continue Account Request** and the NIH will resolve. If all records are incorrect, you may **Reject Account Request**, which will notify <Richard Panniers> that the entire account request is in error."
5. The **Continue** button at the bottom of the page has been changed to read **Continue Account Request**.

Complete Account Request Screen

Complete Account Request Screen Changes

The Complete Account Request screen has been modified. The modifications are as follows:

1. The text on the Complete Account Request screen now reads:
"By selecting Complete Account Request, NIH will verify your information and then activate your account. Generally, this takes two to five business days. You will be notified by email when the process is complete."
2. The **Continue Account Request** button at the bottom of the page has been changed to read **Complete Account Request**.

IAR Email Notifications

Invitation Email

The text of the IAR notification email for reviewers who have been granted participation on Special Emphasis Panel/Scientific Review Group has now been modified. The affected changes are located in two paragraphs, and are highlighted here in bold print.

“This is a system-generated invitation to the NIH eRA Commons Internet Assisted Review (IAR) website in connection with your participation on Special Emphasis Panel/**Scientific** Review Group <insert meeting identifier> **meeting**, scheduled for <insert meeting begin/end dates>.”

“Please visit this web site to create your account **as soon as possible** or no later than **2 weeks** before your reviews are due.”
